

ED 130: Building Reading Comprehension: Foundations of Reading Instruction – Competency 1, Grades K-12

Dates & Times: Online: This 60-hour online, asynchronous course, divided into 20 modules.

COURSE DESCRIPTION:

The building blocks to effective reading comprehension begin in the primary grades with explicit instruction, modeling, and practice. Fluency, word recognition, vocabulary, oral and receptive language, the role of phonics and phonological awareness will include strategic instruction with multiple opportunities for planning and practice. Reading as an ongoing strategic process will be taught through knowledge and practice with fluency approaches, teacher modeling, guided practice, writing, listening, and speaking activities. Under this umbrella, participants will learn to design, teach, scaffold, and differentiate reading lessons and activities effectively using applied strategy that builds student capacity up through grade 5. Story structure, graphic representation, reciprocal questioning, oral retelling, summarizing activities, writing strategies, vocabulary strategies, balanced literacy and critical literacy are just some of the approaches under study. Problem solving strategies geared toward building student reading stamina, coupled with ongoing formative assessment approaches, will serve as catalyst to instructional planning and decision-making. Participants will receive a treasure trove of field-tested tools and resources for effective implementation with multiple opportunities for classroom implementation throughout the course.

STUDENT LEARNING OUTCOMES:

Upon completion of this course, the student will be able to:

- Acquire and use new skills needed to effectively teach reading comprehension in primary grades with an understanding of the oral and written language that facilitates it through phonology, syntax, semantics, and pragmatics as they relate to comprehending print.
- Summarize and articulate the importance and function of receptive and expressive vocabulary instruction, semantics, domain specific vocabulary (academic vocabulary), and morphology as it relates to vocabulary development.
- Communicate and articulate the role of vocabulary as it works into students' understanding of word meanings, repeated practice, and comprehension of print through the use of context clues, explicit teaching, and the use of assessment data to make ongoing decisions directed to individual student needs.
- Apply strategy that builds student capacity through teacher modeling, guided practice, particularly as it impacts text readability, complexity, coherence, structure, and overall comprehension by understanding the interdependence among reading components and their effect on the reading process for native speakers of English as well as English language learners.
- Plan and prepare to teach using scaffolded strategy to move their students along a continuum of reading success as it builds comprehension.

- Plan and practice with numerous formal and informal assessment approaches for comprehension, using data to make informed decisions with which to meet the individual needs of students.

COURSE REQUIREMENTS:

Students will have a designated number of weeks to complete each course (check the Instructions forum at the start of the course as it varies from district to district), after which time they will be un-enrolled. If you need an extension, please email the instructor. Complete one module at a time. The system will auto-check the course components when the requirements have been met. Requirements include reading lectures, viewing video, and responding to discussion prompts or scenario prompts. Keep in mind that:

- Some course elements are optional such as grade-band video and resources, in which case you can toggle over the check box and self-check to keep a record of your progress.
- Certificates of Completion will be made available in the final module once all assignments are submitted, participation and hours requirements met.

In order to receive a Passing grade, the participant must complete the following course requirements:

- All discussion forums and/or scenario responses must include 1 original post to the question prompt and one to another student in the cohort.
- All video viewed. When there are several video divided by grade-band, select the appropriate and view.
- All books read in full, scrolling from beginning to end.
- All practice lessons and/or activities complete.
- All assignments complete (lessons or unit plans)
- Certificates will not be printable until all of the above conditions have been met, with a passing grade issued by the instructor.
